PROFILE SUMMARY

Full Stack Developer skilled in building scalable applications using Java, Spring Boot, Microservices, Node.js, and React. Experienced in developing responsive user interfaces, designing secure REST APIs, and managing databases like MySQL. Passionate about writing clean, maintainable code and delivering end-to-end production-ready solutions.

EXPERIENCE

Vijay Software Solutions Pvt. Ltd.

Aug 2025 – Feb 2026

Fullstack Java Developer

- **ExamProMax Application**
- Developed scalable backend services using Node.js, Express.js, and PostgreSQL, including secure REST APIs with role-based authentication for exam management and user operations.
- Built automated evaluation logic for coding and descriptive assessments, while monitoring logs using GCP and optimizing APIs to improve performance and reduce server load.
- Managed database connections with SSL security, ensured system reliability, and tested APIs using Postman while refactoring code for better maintainability.

Hulk-Hire

May 2025-Aug 2025

Java Developer Trainee

- Developed backend modules using Core Java, Spring Boot, Microservices, and MySQL, while designing and testing RESTful APIs following industry standards.
- Applied OOP principles to build scalable and maintainable code, worked on real-time projects using Postman, Git, and Bitbucket, and assisted in payment integration under team guidance.

SKILLS

Programming Languages: Java, JavaScript
Frameworks & Libraries: Spring Boot, Microservices, Node.js, Express.js, React.js
Web Technologies: HTML, CSS, REST APIs
Databases: MySQL
Developer Tools: Git, Github, Postman, VSCode, Eclipse
Core Concepts: OOP, JDBC, Servlets, JSP
Soft Skills: Problem Solving, Team Collaboration, Agile Development

PROJECTS

Online Compiler System

- Built online code execution platform using Judge0 API.
- Implemented real-time input/output and error tracking.
- Developed backend using Spring Boot, Microservices and PostgreSQL.
- Designed responsive user interface.
- **Tech:** Java, Spring Boot, React, PostgreSQL, REST APIs, Judge0 API

E-Commerce Web Application

- Developed full-stack shopping platform with cart management.
- Implemented secure authentication and order placement.
- Integrated PostgreSQL for data management.
- Built responsive UI using React.
- **Tech:** Node.js, Express.js, PostgreSQL, React

EDUCATION

Rajiv Gandhi University Of Knowledge And Technologies

2021 – 2025

B.Tech in Computer Science and Engineering — CGPA: 8.3

CERTIFICATIONS

- Java Spring Framework, Spring Boot, Microservices, Spring AI (Gen AI) — Udemy
- Career Essentials in Generative AI — Microsoft & LinkedIn Learning.
